## CORE EXPERTISE

### Angular Mastery

Angular 2+ to 17+, Component Architecture, RxJS Reactive Programming, NgRx State Management, Lazy Loading, Route Resolvers, Performance Optimization, Dependency Injection

### Enterprise Architecture

Modular Monorepo Structures, Component Libraries, Scalable Code Organization, Multi-team Development Workflows

### UI/UX Implementation

SCSS/SASS, Bootstrap, Angular Material, Responsive Design, Mobile-first Development, Cross-browser Compatibility, WCAG Accessibility Standards

### Development Tools

Git/GitHub, Jest/Jasmine Testing, Angular CLI, NPM

### CMS Integration

Contentful CMS, Headless Architecture, RESTful APIs

## EDUCATION

### CEDTI (now CDAC) | 2002

Diploma in Advanced Graphics and Multimedia Design

### Aptech | 2000-2001

Certified E-commerce Professional

### University of Calcutta | 1997-2000

Bachelor of Commerce

## PROFESSIONAL PROFILE

Angular specialist with **14+ years in frontend development** and **5+ years of deep Angular expertise (v2+ to latest)**. I help tech teams, startups, and digital agencies build **scalable, responsive, and performant Angular applications**. Expert in solving UI challenges that slow down delivery and frustrate users through **hands-on coding, architecture design, and cross-functional leadership**.

📍 **Available for:** Consulting | Angular Refactoring | Remote Opportunities

## PROFESSIONAL EXPERIENCE

### Consulting Angular Specialist

October 2023 – Present

- **Delivered enterprise-grade Angular solutions** for complex web applications across multiple client projects
- **Architected reusable, modular UI component systems** reducing development time by 40%
- **Optimized application performance** through lazy loading, tree shaking, and advanced Angular optimization techniques

### Principal Engineer

#### Successive Digital

May 2021 - October 2023

- **Implemented clean, scalable Angular architecture** for large-scale enterprise applications with strong emphasis on performance and user experience
- **Built robust frontend systems** using component-based architecture and user-centred design principles
- **Integrated with headless CMS solutions** including **Contentful** for dynamic content management

### Lead UI Developer

#### Excelsoft Technologies

August 2014 - April 2021

- **Led UI development** for educational platforms and enterprise applications serving 100K+ users
- **Designed responsive and adaptive interfaces** optimized for desktop and mobile platforms with 99.5% uptime
- **Managed frontend development team** of 5+ developers, providing mentorship and technical guidance
- **Delivered high-quality user experiences** through stakeholder collaboration and iterative development cycles

## KEY PROJECT HIGHLIGHTS

### Enterprise Dashboard Suite (Educational Domain)

Built modular Angular monorepo architecture supporting 5+ business units with shared component libraries and unified design system

### Marketing Tech Integration Platform

Developed Angular applications with Contentful CMS integration and GIS platform specializing in Location/Audience Analytics for dynamic marketing campaign management
